

## TRIGO 60

Recycling for  
**Cans, bottles, bio-waste,  
packaging, bread, etc.**

Capacity  
**60 L**

### Description

#### Sorting center for children.

Sort waste in school cafeterias and fight food waste effectively.

This is a fun collection solution that helps you launch an educational project on food waste and recycling.

The MINI AGORA range is just the right height for children, has an exceptionally modular design, and is simple and fun to use: a variety of sorting versions are available that can be personalized (colors, graphics, openings) to meet your exact needs.

Its 60-litre internal collection liner makes emptying quick and easy. Optionally, the bins can be inserted in a food-grade stainless steel sorting station.

### Dimensions

For two bins: H: 69 cm, D: 75 cm, W: 85 cm for the TRIGO 60.2 version  
For three bins: H: 69 cm, D: 75 cm, W: 123 cm for the TRIGO 60.3 version

### Weight

3.8 kg per bin

### Material

100% recyclable PE, washing and detergent resistant

### Colours

Drum: grey Cover: over 15 colors available with optional personalized markings (icons, logos, slogans, etc.)
