

# SECURE 120 Collector

Recycling for	Capacity
<b>Confidential documents</b>	<b>120 L</b>

## Description

### Metal collectors for confidential documents

The SECURE system is a range of solid yet lightweight metal collectors that are ideal in terms of use, design and manufacturing quality.

This compact model was specially designed to save space and meet confidential document collection needs.

- security: anti-return slot, lockable strapped cover to prevent access to documents
- mobility: compact and mobile collector with handle for easy moving to document collection or shredding zones.
- compactness: compact design for discrete installation and use despite its 120-litre capacity.
- resistance: very high quality manufacturing that stands up to frequent use.

Additional trim available to personalize these collectors.
