

## SECURE 90

Recycling for	Capacity
<b>Confidential papers</b>	<b>90 L</b>

### Description

**The SECURE system is a range of efficient, space-saving collectors that are top of the line when it comes to use, design and manufacturing quality.**

The SECURE version [for confidential documents] is made of metal, and specially designed to meet the needs for the collection of confidential documents:

- security: anti-return slot, locked strapped cover to prevent access to documents
- mobility: compact and mobile collector with front handle for easy movement to document collection or shredding zones.
- compactness: compact design for discrete installation and use despite its 90-litre capacity.
- resistance: very high quality manufacturing and resistance to frequent use.

Collector sold alone or as optional secure interior bin for AGORA + 90.
